**NEW STRIKE MADE IN** THE FEDERAL TUNNEL

PARK CITY, Nov. 21.—The latest trike in this camp was made Tuesday in the Federal tunnel. While thus faarkey has brought suit against the Southern Pacific for \$100 damages or personal injuries alleged to have been sustained at Lakeside on August 22 last. The complaint alleges that the defendant was knocked down by an engine and lost his use of his teft hand. the vein has not been worked enough to secretain its extent, yet the ore seem to be of good quality and there is 'en couragement in the outlook.

The water problem at the West-Quincy seems about to be solved. All arrangements have been made for tunneling into this property from the Little Bell. It is about 15m feet from the latter mine to the shaft of the West-Quincy and a tunnel run as proposed will strike this shaft at a depth of about one thousand feet. The Little Bell has always been a tolerably dry finne and it is the opinion that the water from the West-Quincy can be drained off through this tunnel without injury to the former property. The air compressor from the Wolverine mine has been installed and a force is now actively at work driving the tunnel.

Park City lodge No. 75t. B. P. O. E. celebrated its third anniversary last evening in Sutton's hall. The hall was fer the time being converted into a typical German beer garden, where a banch of the boys, arrayed as Dutch waiters and waitresses, served a genuine 'Wartz-berger' lunch. The Elks orchestra furnished moster for the evening, and the members of the two vaudeville shows now playing here, who had been invited to attend, assisted materially in entertaining the herd. About one hundred members were in attendance and the hour was early when the meeting adjourned.

After the regular meeting of Sammit temple No. 2. Rathbone Sisters, last ev-ning, a turkey supper was served.

Johnnie Galligan came up from All Hislows this morning to spend the Thanksgiving holidays with his mother.

personne through Sevier county would not be a success, on account of the lack of sufficient gravity. Then an effort was mode last year to get a factory centrally located in this county, and this proposition was most heartily received. A committee was appointed to confer with those who were represented to have the knances and authority to entertain the project, but it is understood that the Utah Sugar compount seared the backers. F. A. McCarty, Charles Heath, Charles Shields and Frank Emery came up from the city this morning, where they had been in attendance upon a meeting of Knights Templars. orosect, but it is understood that the Utah Sugar company scared the backers out of the field.

While the results of beet-growing this year lave been a tittle discouraging, it is understood that unusual conditions prevalled, and that under ordinary circumstances the lands of Seyler county will produce us fine and us good sugar-beets as any in the State.

County Commissioners John Parkett and Freeman Malin spent the day in the Fark en route from Woodland, where they have been looking after various county affairs.

Col. and Mrs. Woodron came out to the camp this morning and spent the day with friends.

Superintendent McCassell of the Daly West is spending a few days in Salt-Lake City. He will be out again tomor-row morning.

For Over Fifty Years.

Preparations are being made for the removal of the building that occupies the site for the new meeting house to be creeted in the Third ward. The building to be torn down is one of the first erected in Richteld. It was built in the early 79s by F. C. Nielson and was constructed almost entirely without nails. The door was held tegether by means of wooden pegs. The walls are of adobes and the roof of dist. An old and well-tried remedy. Mrs. An old and well-fried remedy. Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes pain, cures wind colic and is the best remedy for diarrhoea. Sold by druggists in every part of the world. Be sure and ask for Mrs. Winslow's Soothing Syrup.

# ASK AID FROM STATE OF UTAH

## For Farm Experiment Station.

Salt Lake Horticultural Society Appeals to the Legislature.

Sufficient Appropriation Desired for Permanent Establishment in This District.

save received copies of a report prepared y a special committee of the Salt Lake Horticultural society, asking for a suffident appropriation for the permanent es ablishment in this district of an agricultural experiment station auxiliary to the Sovernment station at Logan. Following a the report, in which all the details of he plan are explained.

The special committee of the Sait Lake County Horticultural society on the exablishment of an experiment station auxiliary to the Government station at logan, reports as follows:

Logan, reports as follows:

The action of the society in appointing this committee was taken in view of the fact that the district immediately adjacent to the Great Sait lake and to Utah lake, including in whole or in part the countles of Box Elder, Weber Davis, Sait Lake, Utah and Junh, has no such station and virtually there is no official or scientific experiment farm work done in the State—with the possible exception of one or two subjects, which will apply to this district. Moreover, all the other climates, soils and altitudes of Utah are now provided for by duly established experiment stations. The principal station, carried on in con-

The principal station, carried on in connection with the State Agricultural college, is at Logan in Cache county, where the allitude is greater, the winter climate more severe and the soil of a much different character than in the middle counties. By reason of these differences the work at the Logan station—however well done—cannot meet the demands of the Salt Lake district.

Nevertheless, the Logan experiment station has been of great and lasting benefit.

Nevertheless, the Logan experiment station has been of great and lasting benefit to the State. The improvements in Cache county, whose wealth and prosperity undoubtedly come from the demonstrations and influence of the experiment station in behalf of the dairy interests there, are sufficient illustrations of this. On the other hand, the peculiar conditions of lesser affitted with a dry and semi-tropical climate in the extreme South are being well cared for at the station at St George.

No Benefit to Northern Counties,

The St. George station was established by action of the last Legislature and has developed under the direction of the president of the State Board of Horticulture, Hon. Thomas Judd. It is evident that the good work of the last-named station can in no wise benefit the middle-northern counties. The only other official farming experiments in Utah are the work of the Inited States Government, in cleansing inited States Government in cleansing he soil from alkali and in the dry farm rops produced under direction of the ogan station.
Any and all of these are of great and

Any and all of these are of great and permanent good for pinces possessing conditions which they represent, but so far as the Salt Lake district is concerned it is without provision or representation, and this notwithstanding that it is the wealthlest, the most populous and has the most favorable conditions of soil, climate and altitude for general farm products, and especially for fruits and fine vegetables.

and especially for fruits and many tables.

Not only are all northern grown fruits and farm products raised here, but they are of superior quality and quantity. Furthermore, this district is the home of the great sugar industry. Thoroughbred live stock of all kinds and fine poultry are successfully raised, and these lines are increasing. This is the railroad shipping marker. Its capneries and preserving increasing. This is the railroad shipping center. Its canneries and preserving plants are considerable and are rapidly

plants are considerable and are rapidly increasing.

Dairy enterprises are successfully carried on here and might be increased indefinitely. Its soils are fertile and deep and its water supply—when poorly conserved—is ample and conveniens. It is, in short, the great heart of the State and the place of the State's most supstantial farm resources. Yet there is no experiment station within or without the State to represent the requirements of this favored valley.

Need Only to Be Demonstrated.

Need Only to Be Demonstrated.

This situation was set forth by the committee to the press and to a large number of business and professional men including National and State officials, most of whom were personally visited. It was pointed out by the committee that good citizens are leaving this to seek homes the other States on the inducement of better conditions of climate, land and water, whereas the conditions here are more desirable and require only to be demonstrated.

It was shown that large and valuable quantities of fruit, vegetables, meat and poultry (fresh and canned) are imported, although the State is able and by reasonable effort may provide for its own and also supply outside markets. The great lesirability of the education of the young to be fitted for the business of profitable mativation of the sull was also shown.

to be litted for the business of profital cultivation of the soil was also show and finally it was emphasized that in experimental and educational appropriation that is behind neighboring common wealths.

weaths. In order that the respective counties might be fully and officially informed, the committee sent an identical communi-cation to the commissioners of each of the six counties in this district setting forth the object sought and the reusens therefor. Thus each county was given ample time to provide a site or other inducements for the location of the proposed station if they should so desire.

As a result of these efforts we are able to report a strong sentiment in favor of As a result of these efforts we are able to report a strong sentiment in favor of the enterprise. The movement is heartily endorsed by the press, especially the leading newspapers of Salt Lake City. Every person consulted has approved the project, in most cases offering their personal assistance. The Commissioners of the counties addressed have all responded with the exception of Box Eider and Utah.

Action Taken in Other Counties. The Commissioners of Weber countrient a special committee of their board to meet this committee when the subject was favorably discussed and at length, in Davis county this committee by invi-iation of the County Commissioners ad-dressed a large meeting of representative farmers, with the result that a local

were fixed as follows: Justice of Peace \$500; Constable, \$500; Road Supervis-ors, \$500; Clerk, \$19,000; Treasurer, \$25,000 Assessor, \$10,000; Recorder, \$5,000; Sheriff \$5,000; Superintendent of Schools, \$5,000; Attorney, \$1,000; Surveyor, \$1,000,

Miss Bertha Brownson, daughter of W. W. Brownson, local agent of the Oregon Short Line, dled Sunday of pneumonia, aged 17 years. Funeral services were held Tucsday at the Catholic church in Ogden.

agricultural society was immediately organized and steps taken to procure a desirable site to be offered for the proposed experiment station. Further action in co-operation with this committee by representatives of the two hast named counties is promised.

In Sait Lake county, the Commissioners expressed their favorable regard for the movement, but took so further action. There has, however, in Sait Lake county, developed recently a strong movement by prominent citizens to induce the location of the station here and this committee has been assured that a suitable site of one hundred and sixty acres of desirable land would be provided without cost to the county or State.

Quite recently a written inquiry has been received from the Commissioners of Just county which has been acknowledged. Though no communication has been received from the Commissioners of either Box Elder or Can counties, prominent citizens representing those counties have personally highly approved the movement. The Deserte Agricultural and Manufacturing Society heartily supports the proposition. Many citizens have urged the advantage of a centrally located station as a desirable advertisement for the State

Asking an Appropriation.

Asking an Appropriation.

A bill has been drawn and is now being refected for presentation to the next sex A bill has been drawn and is now being perfected for presentation to the next season of the Legislature asking for a sufficient appropriation for the permanent establishment in this district of an Agricultural Experiment Station at Logan. This bill will provide for the selection of the site by competent non-partizan board of cormissioners representing all parts of the district. The bill is in general terms and will not in itself favor any particular site or county.

This committee desires to emphasize what has been before stated, that what This committee desires to emphasize what has been before stated, that what is done at an experiment station in this district will benefit every portion of the State, while the work at existing stations is of box little use to this rich lake region. This is then a matter of great general good to the whole State. It does not belong to any faction or party and does not antagonize or conflict with any existing institution or measure. Colorado has several such stations. California has as many as five Regarding this as the principal fruit and general farming district of our State, it may be said that for an available representative experiment station Urah has none.

The committe will be grateful for suggestions of any kind on the subject.

Respectfully submitted.

ALBERT W. CASEY.

Chairman.

JOHN E. CON.

JOHN E. COX, Sait Lake City, Utah, November E, 1994.

Nora McKinney, 2:12%, trotter, b. m.
McKinney-Saily Dexter, was sold to Wilillam Simpson, New York city, for \$11,000;
consigned by Brayton Ives, New York
A total of ninety-seven horses were sold
during the day for \$120,775, an average of
\$1248.

51348. The total for the four days was 419 head, sold for \$278,750, an average of \$222. This is \$26,000 more than the total corresponding period of last year's gale.

SPRINTING MATCH.

Over Forty Runners Start in Junior Championship.

NEW YORK, Nov. 24.-John J. Daly of Salway, Ireland, running in the colors of Galway, Ireland, running in the colors of Greater New York Irlah Athletic association, won the A. A. U. individual cross-country championship of the Metropolitan district at Travers island today. The team honors went to the Xavier Athletic association, which was the first to have five men cross the finish line. The distance was a little over six miles, and Dailys time was 2011. Over forty runners started in the junior championship and the principal honor was won by Michael Spring of the Pastime Athletic cips of this city, and his ciub also took the team prize. Spring is well-known as a distance runner, having won the Maradistance runner, having won the Mars-thon race at Boston recently.

ONE KELLEY IN LUCK. Another One Knocked Out by His

Namesake.

NEW ORLEANS, Nov. 24-'St. Louis immy" Kelley defeated "Philadelphia" Charles Kelly, in ten rounds before the Young Men's Gymnastic club tonight. The loser was over weight, but had to save binnelf from his 120-jound rival by hugging the floar so as to stay the ten counds.

Bill Walsh of Los Angeles defeated Car-roll Cain of St. Louis in ten rounds. Cain was the cleverer, but Walsh the steadler and harder lighter.

ROOTERS HAVE A FIGHT.

Salt Lake and Ogden Enthusiasts Clash-Prof. Eaton to the Rescue.

Special to The Tribune. OGDEN, Nov. 21.-A "mass play" that vas not advertised on the programme WOMAN'S BEST FRIEND.

Women suffer all about us with headache, backache, loss of energy and spirits, Nervous Dyspepsia and many other ailments which make life almost unbearable. Every woman can be immediately relieved of this suffering if upon the first sign of derangement she would take a dose of

following the instructions with each box of pills thousands women all over the world have saved their lives.

BEECHAM'S PILLS purify the blood, give strength and vigor to the digestive organs, give vim and tone to the nerves and put the whole body in a healthy condition. A box of BEECHAM'S PILLS should always be kept in the house as, like a "stitch in time," they will invariably have the most beneficial effect and save much future worry and anxiety.

Sold Everywhere in Boxes, 10c. and 25c.

oon during the game between the Salt Lake and Ogden high school football teams. Some rooters for the rival teams ame together and for a time a riot came together and for a time a riot seemed imminent. The Sait Lake high school flag was torn to shreds and a free-for-all fist fight enused.

Several police officers attempted to quell the riot, but not until several of the belligerent youths had been clubbed were the rival factions separated. Prof. Elston, principal of the Sait Lake high school, semred the remnants of the despolled pensant and bere it about the held, followed by a throng of Sait Lake students, who dared anybody to touch the sucred emblem. No further transler essibled, however, and no arrests were made.

No Decision Given.

WEBSTE Mass., Nov. 24 - Sam Langs ford and Andy Watson, both of Boston, fought twelve rounds today at the Lake-side Athletic chib. Langford drove Wat-son all over the ring and twice knocked him through the ropes. No decision was given, but it was clear that Langford was the better man.

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through

which the expectant mother must pass, how-

ever, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of Mother's Friend,

a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this

great crisis in perfect safety and without pain. Sold at \$1.00 per bottle by druggists. Our book of priceless value to all women sent free. Address BRADFIELD REGULATOR CO., Atlanta, Ga.
